PRICE TWO CENTS.

"Saved Her Life."

MRS. JOHN WALCOTT, of Jefferson, Wis., than whom none is more highly esteemed or widely known, writes: "In 1890 I had a severe attack of LaGrippe and at the end of four months, in spite of all physicians, friends and good nursing could do, my lungs heart and nervous system were so completely wrecked, my life was despaired of, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie in one position but a short time and not on my left side at all. My husband brought me Dr. Miles' Nerve and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took about a dozen bottles and was completely restored to health to the surprise of all."

DR. MILES' REMEDIES are sold by all druggists under a positive guarantee, first bottle free, or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., ELKHART, IN.

REBELS ON RETREAT

American Warships Drove the Insurgents Out of the Town of Bacoor.

CITY FULL OF WHITE FLAGS

When General Lawton and the Fourth Cavalry Enter—Only Women and Children Are to Be Seen—Aguinado Using the Guns Presented to Him by Dewey Against American Army.

Manila, June 15.—The Filipinos retreated several miles southward after the engagement with General Lawton to the strongly fortified town of Imus. The shelling of the American warships drove the rebels from Bacoor, so the Americans control several more miles of coast.

General Lawton, with his staff and a troop of the Fourth Cavalry, started to ascertain the nature of the insurgents' position. He rode five miles along the coast to Bacoor without discovering the enemy. He found the town full of white flags, but there were no soldiers there. The women and children, who had fled to the woods during the bombardment, were camping in the ruins of their homes. The shells had almost knocked the town to pieces. The big church was wrecked and many buildings ruined. Even the trees and shrubbery were torn as by a hail storm.

Several hundred women and children came into the American lines for refuge and the road from Bacoor was covered all day long with processions of them on foot and in carts, driving animals and carrying goods on their heads. The appearance of the battlefield testified to the fierceness of the fighting. The trees along the river, between the lines are almost torn down by bullets. The American officers estimate that 100 insurgents were killed and that 300 were wounded during the engagement. The next battle will probably be fought at Imus. The American troops will soon control the coast to Cavite.

DEWEY'S GENEROSITY.

Gave Aguinaldo the Artillery He Is Now Using Against Our Troops.

Chicago, June 15.—According to General Anderson, commanding the department of the lakes, the heavy losses of the American troops in the recent engagements with the Filipinos at Las Pinas and Bacoor, south of Manila, were caused by the artillery which Admiral Dewey presented to Aguinaldo last winter. The batteries in question, General Anderson says, are being operated by Spanish prisoners who have been released by Aguinaldo with the understanding that they enlist in the insurgent army.

General Anderson took the first detachment of troops to the Philippines last fall, and was a prominent figure in the first negotiations between this country and the Filipino government.

"When Admiral Dewey captured Cavite," said General Anderson, "he took possession of a lot of artillery and later presented it to Aguinaldo. The insurgents removed the field pieces to Las Pinas and adjacent points, and have kept them there ever since.

"It is these cannon that are now being used by the insurgents against our troops with such terrible effect in the province south of Manila. The Spaniards operating the guns are trained experts in the handling of fieldpieces, and are evidently using their knowledge with deadly effect on our troops. The native Filipino knows nothing of the proper handling of artillery. After the first skirmish we had with the insurgents last fall, I strongly advised that Aguinaldo and his men be driven from the province south of Manila, as they

might cause trouble later, if permitted to retain their position. The weather was favorable to prompt action at that time and the rebels could have been driven back into the country without difficulty. General Otis did not see fit to follow my advice, however, and the insurgents have been there ever since, building entrenchments and preparing for attack. General Otis entertained the opinion that the enemy could be dislodged at any time without trouble. In this he was mistaken, as the stubborn engagements of the past few days show."

GENERAL WHEELER

Alabamians Want Him to Run For Governor.

Huntsville, Ala., June 15.—Democrats who desire to nominate General Joseph Wheeler for governor of Alabama profess to find hope in the general's non-committal attitude that he will accept the nomination. Representative J. H. Wallace and others have just returned from Washington, where they saw General Wheeler. The latter is reported as saying:

"It is yet too early to make a definite decision as to what I will do. To be governor of Alabama is an honor to which any man might aspire, yet I cannot at this time say I will make the race. I will say, however, that I am under obligations to no man to remain out of it."

Transvaal Gold Output.

Washington, June 15.—The output of gold from the Transvaal during last March, the date of the latest official report, was far in excess of any previous month, the figures being 464,086 ounces, valued at \$5,584,000, and no less than \$2,992,995 of gold are being shipped each week from South Africa. The March output was double the figures of two years ago, and the increase still goes on.

SPANISH PRISONERS

Dona Expected to Again Open Negotiations For Their Release.

Washington, June 15.—As a result of the understanding recently arrived at between the Spanish minister, Don d'Arco, and our authorities, it is expected that the Madrid officials will, at an early date, select a commissioner to reopen negotiations with Aguinaldo for the release of the Spanish prisoners held by the insurgents. The efforts of the United States authorities have been fruitful, not only as to releasing the Spaniards, but also as to Lieutenant Gilmore and other American prisoners. It is for this reason that the Spanish authorities will be given all necessary facilities for securing the release of their prisoners.

Imports and Exports.

Washington, June 15.—The monthly statement of the imports and exports of the United States for May, issued by the bureau of statistics, shows as follows: Imports—Merchandise \$70,181,628, an increase as compared with May 1898, of about \$10,500,000; gold \$3,070,265, decrease \$10,250,000; silver \$3,010,353, increase \$1,500,000. Exports—Domestic merchandise \$91,252,814, decrease \$17,500,000; gold \$2,049,255, increase \$1,940,000; silver \$4,486,549, increase \$203,000.

Almost Without Precedent.

Washington, June 15.—Thomas F. Lyons of North Carolina yesterday was appointed a first lieutenant in the United States marine corps. He was formerly an enlisted man and the appointment is almost without precedent in the history of the marine corps.

DESTITUTION

Prevails to an Alarming Extent in the Yukon Country.

Vancouver, B. C., June 15.—Owing to the big rush to the Yukon goldfields wild animals that have not been killed by the prospectors have died of higher ground, and in consequence, the Indians, deprived of their natural food, are starving, and in many instances ready to massacre the whites. The first definite story has just reached civilization. Cesare Francesca of Salt Lake City, Robert Hitchcock of Detroit and a French Canadian guide, who arrived by the Cottage City, say that while camping in upper reach of Stewart river they came upon a camp of 150 Indians and were told in trade language by their interpreter that 30 of them had died of starvation during the winter owing to whites driving deer from the lowlands. The men supplied the Indians with food and camped a short distance off.

The first steamer with news direct from Glenora and the All Canadian route reports that suffering on trails has been terrible. The Hudson Bay Trading company has saved hundreds of Americans from death by starvation. Mr. Reifsnider of Philadelphia, says 150 destitute Americans were fed on Laird river, and that on April 15 Valentine Wendler, aged 32, of New York, was found dead 12 miles from McDames Post.

MIAMI UNIVERSITY

Seventy-Fifth Anniversary of the Institution's Alumni.

Oxford, O., June 15.—Dr. W. O. Thompson, president of Miami University at this place, has been elected president of Ohio State University at Columbus. The trustees of Miami University have increased the salary of Dr. Thompson to the amount of the salary at Ohio State University, and it is now thought that Dr. Thompson will remain here.

A feature of the 75th anniversary of the institution was the alumni dinner, with Congressman Albert S. Berry of Kentucky as toastmaster. Among those responding were Whitlaw Reid, Dr. McCracken of New York University, Mr. Pence of Chicago and General Samuel Carey of Cincinnati, the latter representing the oldest class—that of 1824.

STORM AT HERMAN

One Hundred Buildings Completely Destroyed by the Cyclone.

TEN PERSONS WERE KILLED

And Twenty-Five Injured, Five of Whom Will Die—Population in a Pitiable Condition—Absolutely No Resources and Must Depend on Public Charity—Work of Relief.

Herman, Neb., June 15.—Ten persons dead, 25 injured, five of whom will die, and half the remainder suffering from very serious wounds, sums up the list of casualties resulting from the cyclone that wrecked this place.

One hundred buildings have been completely destroyed. Only six structures remain intact, three in the north and the same number in the south part of town. These comprise four residences, the schoolhouse and one church.

The population is in a pitiable condition. Those who lost their homes, and there are about 500 of them, are absolutely without resources and must depend on public charity for sustenance and a chance to begin life over again. The few who escaped without injuries or loss of property are so completely dazed that they know not what to do.

The work of relief has already begun and in a substantial manner. About 100 of the unfortunates are housed at Blair. The latter town yesterday raised \$300 as a relief fund and the Washington county authorities appropriated \$500 for the same purpose. Two dozen tents were sent out from Blair yesterday afternoon and were last night occupied by the homeless. The Blair fire department has been on guard all day at the scene of the disaster keeping deprecators away, though there is nothing left to steal. Everything went to pieces in the wild swirl that obliterated the town. Advice from Blair state that most of the injured there are doing well. The dead will be buried today. It is hoped that in a few days the work of rebuilding will begin. Offers for assistance are pouring in from all quarters.

THIRTY-TWO

New Made Graves at New Richmond, Wis.

New Richmond, Wis., June 15.—Thirty-two new graves were made yesterday in two little cemeteries at opposite sides of the town, a constant succession of funerals threading a passage through the littered streets all day long. Services for 22 were held in the Little Catholic church, and from the Congregational church 10 funerals had been held by evening. There is still a large number of unburied dead, and but for the fact that a large number of coffins failed to arrive it is likely the number of funerals would have been close to 50.

The militia is keeping a strict guard over the devastated district and no one who could not show excellent cause for admission was allowed within the lines. Food was so plentiful yesterday that the relief committee made a large sum of money by selling sandwiches and bread to visitors. All the funds derived from this source of revenue was turned over to the general fund and from this source alone nearly \$800 was derived. Ten cents was charged for a thimbleful of coffee, and the same amount for a very desperate sandwich. The cashier, moreover, made it his business to be forgetful of returning change and in numberless cases he worked off his sandwiches at 50 cents a piece.

Thousands of Acres Under Water. Milwaukee, June 15.—A Journal special from Chippewa Falls, Wis., says: Thousands of acres of land are under water and scores of bridges have been carried away. A train with 1,000 sight-seeing excursionists bound for New Richmond is tied up at Colfax on account of high water.

AFTER JEFFRIES' HONORS

Mike Morrissey, Newly Arrived Irish Heavyweight, Wants A Go.

New York, June 15.—Mike Morrissey, the newly arrived Irish heavyweight pugilist, who is to meet Peter Maher before the Lenox Athletic club next Tuesday night, through his manager and backer, P. J. Dwyer of Brooklyn, yesterday deposited \$9,500 with George Considine of this city to bind a match with Jim Jeffries, the heavyweight champion.

In a letter addressed to W. A. Brady, Jeffries' manager, Dwyer states that he would be pleased to meet Brady at any place designated next Wednesday to sign articles of agreement, the bout to take place any time from one to 12 months from date of signing.

Willing to Meet Morrissey.

Hartford, June 15.—W. A. Brady, manager for Jeffries, was seen last night in reference to the challenge of Mike Morrissey. Brady said that if Morrissey is in earnest he will be accommodated. Jeffries is willing to meet Morrissey Aug. 3 in London if the latter prefers, and not wait until the Sharkey bout is settled.

President of Bethany College.

Morgantown, W. Va., June 15.—The trustees of Bethany college at this place have elected Dr. Kelsey of Washington, Pa., as president, in place of President Hagerman, resigned, and he has accepted.

Damaged by Fire.

Dunkirk, Ind., June 15.—S. J. Smith's store in the Cunningham block was damaged by fire to the extent of \$3,000 yesterday.

ILLEGITIMATE SCREENING

Miners and Operators Have a Stormy Meeting.

Terre Haute, Ind., June 15.—The executive boards of the United Mine Workers and the Bituminous Coal Operators' Association of Indiana met in convention in this city yesterday. The miners had a grievance to present concerning a number of operators in screening their coal over 14 inch regulation screens and paying for it at the rate of 40 cents per ton, instead of 60 cents. The meeting was rather a stormy one and failed to reach a conclusion. The question of illegitimate screening will be brought up by National President Mitchell in some different way. Mr. Mitchell, who was present, stated that the matter would have to be settled.

LIVE WIRE

Picked Up by a Telephone Company Employee—Hurled Fifty Feet.

Logansport, Ind., June 15.—Charles Washburn of this city, an employee of a telephone company at Marion caught a coil of live wire which was thrown from a pole by a fellow workman. The live wire came in contact with the street railway trolley wire, charged with 450 volts of electricity. Washburn was hurled nearly 50 feet by the shock and was picked up apparently dead. He regained consciousness, and it is thought his injuries will not prove serious.

LIFE SENTENCE

Murder of Attorney Westenhaver Found Guilty.

Bowling Green, O., June 15.—The jury in the case of Paul Zeitner on trial here for the murder of Attorney Westenhaver at Hoytsville, March 25, yesterday brought in a verdict of murder in the first degree. The jury recommended a life sentence for Zeitner and Judge Schaenberger immediately pronounced that sentence on the accused. The prisoner seemed entirely indifferent as to his fate and received the sentence without the least emotion of any kind. The trial of John Zeitner, who assisted in the killing, will soon begin.

Grand Lodge of Elks.

St. Louis, June 15.—The annual convention of the grand lodge of the Benevolent and Protective Order of Elks, which will begin here Tuesday, June 20, will be the largest and most important held by that body. Thousands of members of the order from every state in the Union are expected here and the hotels have already had most of the rooms reserved. There will be plenty of accommodations for all, however. Over \$12,000 in prizes will be distributed.

THE POPE'S TROUBLES

Dissatisfaction Alleged to Exist Over Appointment of Cardinals.

Rome, June 15.—Pope Leo's decision to confer a cardinal's hat upon Archbishop Casanova of Santiago signifies that all the negotiations with a view to restoring diplomatic relations between the vatican and the Argentine Republic had fallen through. In 1884 President Roca expelled the papal internuncio, Mgr. Matera, from the Argentine Republic because he interfered in internal politics. The pope has been anxious to effect an understanding with the Argentine Republic, and even went so far as to promise that if the latter took the first step he would confer a red hat on Mgr. Castellano, the archbishop of Buenos Ayres.

The Argentine government has not responded to these advances, and the pope is now retaliating by giving the red hat instead to Archbishop Casanova, thus investing the Chilean prelate with the primacy of the entire church of South America.

Great dissatisfaction is expressed in vatican circles over the action of the pope and of Cardinal Rampolla in accepting the offers from Cardinals-elect Casetta and Del Drago, both of whom are rich men, to forego, not only the sum usually granted by the papacy to Italian cardinals on their creation in order to provide for the expenses of their new dignity, but to do without the salary of \$8,000 a year attached to the post of a cardinal of the Curia.

The offer of the two prelates in question is calculated to convey the impression that red hats go to those who are best able to pay for them. An arrangement has been made between the vatican and the French government whereby the pope is creating a French cardinal of the Curia on the express condition that the French treasury pays the stipend of the French cardinal here.

PRESIDENT KRUGER

Says He Does Not Want War, but He Will Make No More Concessions.

Pretoria, June 15.—The Volksraad has resolved to accept President Kruger's franchise proposals and refer them to the people before putting them into operation.

President Kruger, in thanking the raad, said: "In these troublesome times we do not know what is going to happen."

England, he added, had not made even one little concession, and he could not give more. He reminded the raad that God had always stood by them. War, he asserted, he did not want, but he would not relinquish anything more. In concluding, he called them all to witness that though their independence had once been removed God had restored it.

WHISKY BARREL FAMINE

Independent Distilleries Planning to Build Coöperage Works.

Louisville, June 15.—Distillers who are independent of the Kentucky Distilleries and Warehouse company are planning to build a mutual coöperage works in Louisville. The whisky barrel famine, which started shortly after the bourbon trust was formed, continues. The price of barrels is so high that many distillers have limited their production. This, they say, is due to the fact that the combine contracted for the output of the large coöperage concerns and practically controls the barrel market in Kentucky and elsewhere.

FRUIT CANNERS' TRUST

Will Close About Two-Thirds of the Plants in California.

San Francisco, June 15.—A combination of fruit canners has just been completed in this city and all the necessary papers, carrying options on about two-thirds of the canneries of the state have been signed. It is reported that the organizers will centralize the product; that is, they will close up about half of the canneries under their control. It is asserted that the trust contemplates advancing prices.

Nurserymen Meet.

Chicago, June 15.—Nurserymen from all parts of the United States and Canada, as well as from England and France, gathered here yesterday to attend the opening session of the 24th annual convention of the American Association of Nurserymen. Fruit tree growers made up the major part of the convention, showing that of late more attention has been paid to this branch than ever before.

Lived at the French Court.

Kenosha, Wis., June 15.—Mrs. Maria Ramsay Bacot, who lived at the French court during the time of Napoleon III, and a literary woman of considerable note, passed away at her home in this city yesterday. The deceased was 79 years of age.

The Brother Qualified It.

At a Georgia camp meeting a good brother continually repeated in the course of a long prayer: "Lord, send the mourners up higher! Send 'em up higher right away!" A storm was brewing outside, and as the hurricane swept down on them the brother qualified his closing petition with:

"But not through the roof, Lord! Don't send 'em through the roof! That would be too high!"—Atlanta Constitution.

THURSDAY, JUNE 13 1899.

INDIANA is proud of General Lawton and is ready to do him honor. He is a fighter whom the whole country respects.

MADISON is being well advertised by the newspaper men who attended the Democratic Editorial Association there. Some of the "write-ups" have been of exceptional merit.

The refusal of the Parry Manufacturing Company to join the carriage makers trust will no doubt prove a big advertisement for the Parry vehicles. Everything being equal the people who buy will not buy trust made goods.

The Indianapolis News has been on both sides of the controversy relative to the pitching of the Epworth League tent on the State House grounds. It may be that the News' several editorial writers held different opinions and did not get together until the controversy was settled.

The REPUBLICAN has maintained all the time that if the city anticipates going into the lighting business we should know what a municipal plant would cost if purchased out right. There are a great many taxpayers who believe that the rental plan is an expensive way to get to municipal ownership.

THERE is a more satisfactory way of getting at facts and figures relative to an electric light plant, based on plans and specifications not followed, than from a promoter of a certain plan. He is working for his interest as he has a right to, but the interest of the people must be guarded as well as his own.

SAMUEL E. SPOONER, secretary of the republican state central committee has been appointed assistant in the office of Attorney-General Griggs, and is receiving the congratulations of his many friends. He will likely move to Washington City. This will make it necessary for the state committee to appoint a new secretary.

PROF. W. A. BELL who has been editor and publisher of the Indiana School Journal for thirty years has sold the Journal to ex-State Superintendent Geeting. Prof. Bell's connection with this excellent publication ceases with the June number. He has done a good work during all these years and has a host of friends in every county in the state. Mr. Geeting, who takes charge of the Journal, is one of the leaders of educational thought and activity in Indiana and we bespeak for him liberal support from the Hoosier educators.

The foresight of Senator Beveridge in going to the Orient to study the great question now affecting our government has been commended in the highest terms by the people everywhere. Leading newspapers in all sections of the country have published editorial commending his course. And, too, the local newspapers of Indiana have had many kind words for the young senator but strange to say the editorial writers of the Indianapolis newspapers have entirely lost track of the junior senator.

Held Illegal.

The purchase of the fifty-thousand-dollar water-works plant at Alexandria by municipal authority has been held to be illegal, as the result of injunction proceedings. Ten thousand dollars has already been paid on the plant.—Courier-Journal.

Condition Critical.

John Jones the J. M. & I. expressman, who was stricken with paralysis of the brain Monday is still in a critical condition at his home in Indianapolis. Visitors are prohibited from going into his room to see him.

RAILROAD RUMBLINGS.

C. M. Gossett, of the I., D. & S., was in the city today.

J. H. Dodge, of the E & T. H. was in the city last evening.

Superintendent Thompson of the Southern Indiana, was here last evening.

Engineer Daniel Lester of the branch came home yesterday to visit his family.

E. R. Wilson, of the Southern Indiana was a business visitor here today.

Section Foreman Anthony McGinty and his force are raising and improving the side track at Dunhams.

Switchman J. S. Hord had his thumb badly broken by being knocked from a car in the yards Monday night. He is able to be about again.

The stone foundation for the water tank of the Southern Indiana at the "Y" eas' of town is completed and ready for the iron superstructure which will be begun at once.

Thank You, Bro. Brown.

The Seymour REPUBLICAN comes to us each week loaded with advertising of a paying nature and filled with county correspondence, making it an excellent paper. The community of Seymour has an able exponent in the REPUBLICAN, and seem to realize the fact by their patronage. Glad to see your prosperity Bros. Smith and Remy, even if we do not get "such a much" ourselves.—Crothersville New Era.

Now Stopping with Goss.

Sheriff Goss has Dave Harris in his charge, having brought him over from Salem. Harris will waive preliminary examination and await the convening of the August term of the Jackson circuit court. A change of venue is anticipated. John M. Lewis, jr., has been asked to defend him.

Mrs. John Lemon entertained the Marchal Niel club at her home last evening. Refreshments were served in abundance. The occasion was a very pleasant one.

Engineer James Wyatt and wife, were this morning called to Louisville by a telegram announcing that the 18 year old daughter of his brother was fatally burned last night. No particulars.

WORRY.

What This Foolish, Enervating Habit Does For Mankind.

Worry is forethought gone to seed. Worry is discounting possible future sorrows so that the individual may have present misery. Worry is the father of insomnia. Worry is the traitor in our camp that dampens our powder, weakens our aim. Under the guise of helping us to bear the present and to be ready for the future worry multiplies enemies within our mind to sap our strength.

Worry is the dominance of the mind by a single, vague, restless, unsatisfied, fearing and fearful idea. The mental energy and force that should be concentrated on the successive duties of the day is constantly and surreptitiously abstracted and absorbed by this one fixed idea. The full, rich strength of the unconscious working of the mind, that which produces our best success, that represents our finest activity, is tapped, led away and wasted on worry.

Worry must not be confused with anxiety, though both words agree in meaning originally, a "choking," or a "strangling," referring, of course, to the throttling effect upon individual activity. Anxiety faces large issues of life seriously, calmly, with dignity. Anxiety always suggests hopeful possibility; it is active in being ready and devising measures to meet the outcome. Worry is not one large individual sorrow; it is a colony of petty, vague, insignificant, restless, imps of fear, that become important only from their combination, their constancy, their iteration.—William George Jordan in The Saturday Evening Post.

Pabst Malt Extract The Best Tonic

Is a wonderful aid in the maintenance of health; it is an easily assimilable form of nourishment in illness, and is invaluable in restoring shattered nerves and in convalescence. A doctor writes:

"I have found it especially valuable for persons convalescing from fever, and for nursing mothers. I am highly pleased with it and my patients could not do without it."

At all Drug Stores

Thomas Hopewell is enclosing his lot at the rear of his stable with an eight foot fence and will erect sheds and stalls within. He will also establish a wagon yard, something much needed.

KIDNAPED BY INDIANS

THRILLING STORY OF A WOMAN'S CAPTURE AND ESCAPE.

Plucky Mrs. Larimer Was the Heroine of an Exciting Adventure With the Bloodthirsty Sioux In Wyoming Territory In 1864.

While in Washington one day I saw come out of the department of justice a woman of attractive appearance. As she paused a moment on the step and looked with bright, observant eyes over at the White House and along Pennsylvania avenue, she presented a picture of comfort, placid middle age. One of the attorneys from the Indian depredation claims department accompanied her to the door, and after she bade him goodbye he said:

"That woman is Mrs. Sarah L. Larimer of Nebraska, and she is making her yearly visit to Washington. When at the capital, she always calls on her friends in the department of justice. The files of Indian depredation claims contain no more romantic and thrilling incidents than those which relate the early life of Mrs. Larimer. Those who meet her now as a woman of the present day, quite abreast of the times in which she lives, interested in all public questions and full of kindly sympathies, can scarcely realize that in her youth she was the heroine of a regular 'dime novel' story of the plains.

"In 1864 Lieutenant Larimer, who had just been honorably discharged from the Union army, left his home in Kansas, accompanied by his young wife and little child, to cross the plains for the restoration of his health, which had given out through hard service in the war. They were in company with several other travelers and had with them valuable personal belongings, consisting of several wagons and horses, expensive clothing, family jewels, a complete photographic outfit and nearly \$4,000 in money. When in Wyoming territory, they were surprised by a band of Sioux Indians, who murdered three of the party, wounded two, Lieutenant Larimer being one of the wounded, and captured Mrs. Larimer and her child. The Indians took the woman and child to their camp, about 70 miles from the spot where they had attacked the travelers.

"A day or two after the attack news came to the Eleventh cavalry, stationed at Fort Laramie, Wyo., that the Sioux had attacked travelers on the emigrant road and had carried Mrs. Larimer and her child into captivity. Lieutenant Larimer had been found, nearly dead from arrow wounds and distracted at the fate which had befallen his wife and baby. The officers of the Eleventh immediately moved part of their command up the Platte river and obtained further information as to where the raid had taken place. They were about to move against the Indians with a force of two companies when Mrs. Larimer came crawling into camp, carrying her child in her arms. Their condition was deplorable. She and the child were nearly famished. As soon as Mrs. Larimer was able she gave a detailed account of the position of the Indians, their plans and movements, their designs against the command which they knew would be moving against them, their numbers and the ambuscades which they had prepared. Her information was so valuable that the officers were able to thwart the designs of the Indians, not only against the pursuing troops, but against exposed points and trains that were on the emigrant road.

"The officers found the information Mrs. Larimer gave as to the position and movements of the Indians to be exactly as she had said and marveled at the powers of observation and clearness of memory which had endured through the hours of torture she had gone through. The accuracy of her statements was particularly verified by the fact that one of the lieutenants and a few of his men, who had disobeyed orders and followed a trail apart from the command, fell into an ambuscade described by Mrs. Larimer and were killed.

"Mrs. Larimer was never quite clear as to how many hours she had passed with the Indians. From the moment of captivity, when they had started off with her child and herself in their train, she had concentrated every faculty on watching for an opportunity of escape. She had seen her husband struck down by arrows, killed, as she supposed; had seen the wagons fired and her friends killed and wounded. She had read of the tortures inflicted by Indians upon women captives, never imagining that one day she would be their wretched victim. She was determined, if possible, to get herself and child away from their clutches and die in some other way than by their tortures. She had always been a girl of fearless disposition, quick in her movements and very observant. She pretended to be bodily in a languid and almost immovable state. After hours of waiting and watching their dances and listening to their plans for further depredations, when they had ceased to observe her, she found a chance to slip away beyond the fires into the dark bush. For hours and hours, through two days and nights, she struggled on, faint, nearly dead, until she fell exhausted in the camp of the cavalry.

"It was a happy time, of course, when she found her young husband alive. All they had in the world was gone, but after the horrors of their experience had passed away a little and health was in a measure restored they started out afresh. Mrs. Larimer has always been the business manager of the firm. Her husband never had his health completely restored."—Philadelphia Times.

Locusts are an article of food in parts of Africa, Arabia and Persia of such importance that the price of provisions is influenced by the quantity of the dried insects on hand.

An Attractive Summer Haven for Rest Recreation and Entertainment.

Winona Lake, Indiana, on the Pennsylvania Lines, is an attractive summer haven for persons who may desire to combine devotion, entertainment and instruction with rest and recreation. This lake is a beautiful sheet of water nearly two miles long, surrounded by romantic woodland, which has been improved into a grand summer resort with all the comforts and conveniences for a delightful sojourn. The entrance to the grounds adjoins the pretty station of Winona Lake on the Fort Wayne Route.

As the site of Winona Assembly and Summer School, this resort is visited each summer by many people who are invigorated in both mind and body by the instruction, entertainment and health giving recreation for which Winona is famous. The educational work of the summer school is under the supervision of prominent instructors. Fine facilities for athletic pastimes are provided, and the college halls and large auditorium are amply equipped for interesting work. The boating, bathing and fishing are excellent. The permanent accommodations may be secured at reasonable rates. There is also a large hotel and provision for camping out for those who may enjoy tent life. Supplies are obtainable at the large store on the grounds.

The season of 1899 will open May 15th. Commencing on that date excursion tickets with fifteen days limit will be on sale via Pennsylvania Lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will also begin May 15th, and continue daily until September 13th. Excursion tickets will be good returning until September 15th.

Full information about the attractions at "Beautiful Winona," its Assembly and Summer School, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, Secretary Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania Lines, or to F. VAN DYKE, chief assistant general passenger agent, Pittsburg, Pa.

THE MURDERED MAN

Insured By the Prudential Insurance Agent.

An interesting feature in connection with the death of the late Geo. Brown is that it was only through the persuasion of the insurance agent that his insurance had not been discontinued. The fact that it was not and that the full amount, \$190.10 was paid this morning should be an object lesson to others who carry insurance.
